AVERAGE INTERVIEW

← Hiring Outcome is more likely to be Hired when RecruitmentStrategy is Aggressive than otherwise (on average).

☐ Only show values that are influencers

RECRUITMENT STRATEGY - Aggressive strategy increases the likelihood of a hire by 5.18x compared to other strategies.

ASSESSMENT QUALITY- A 29.35-point increase in skill score raises hiring likelihood by 2.36x; personality score shows a similar 1.99x effect.

CANDIDATE PROFILE- Education level (PhD) and experience also rank among the top influencers, though with smaller effect sizes than strategy and assessment scores.
